

## Spellings for the week commencing 23<sup>rd</sup> March 2020

These are your weekly spellings to practice. Some suggested ways to help you practice these are: to create a wordsearch with your words and list them underneath or put all of your words in some kind of box, play music and pass the box around your family, when the music stops, pull out a word, read it and then get the other people to spell it – get points for a correct spelling.

Challenge yourself to learn as many of these words as possible this week, if you can complete all 12 spellings then you are a spelling master. If you can correctly spell these, try to write a selection of these in sentences.

### Tricky
