

**As Coningsby authors we will be ....** looking at some exciting books this term. We will be starting with the book Little People, Big Dreams about Amelia Earhart and then moving on to Stanley's Stick about a boy and his special stick. We will then be in December and will be sharing Christmas books. Mog's Christmas Wish, and The Jolly Christmas Postman as well as Polar Express in the final week.

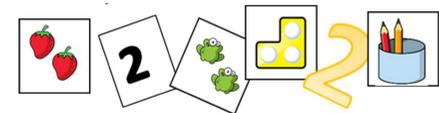

### Autumn Term 2

This term is an exciting term as we lead up to Christmas. We have outlined the exciting things that we will be covering this term on the newsletter. We will be performing our own Nativity this year so it won't be too long before we will be singing lots of Christmas songs!!

This term RC will have PE on Thursday mornings. Please remember to send in a pair of wellington boots as we will be using our outdoor, grassed areas which can be wet.

**As Coningsby mathematicians we will be** looking at the ways we can represent numbers in different ways. The children will be counting forwards and backwards and identifying one more and one less than a given number. We will be investigating 2D and 3D shapes and describing their features. We will also be looking at positional language when describing where things are.

**Can you make crazy creations and marvellous music?**

**As Coningsby believers we will be .....** learning about some special people in religion such as Jesus, Prophet Muhammad, Moses and Guru Nanak. We will be learning about the special jobs that some people do in religious communities such as vicars, imam and rabbis.

We will of course be learning about the Christmas story and the children will all be performing roles in our EYFS nativity.

**As Coningsby artists we will be .....** making Rangoli patterns and Diva lamps as part of our look at the Hindu festival of Diwali. We will be making musical instruments and learning to join materials together.

As we get nearer to Christmas we will be making Christmas decorations and allowing the children to decorate a tree in the classroom with their creations.

**As Coningsby scientists we will be .....** exploring the world around us using our senses. We will be thinking about how we use our sight, taste, smell, touch and hearing to make sense of the world. We will be looking at light and dark and exploring shadows by using torches and puppets to make our own shadows.
