

EYFS Autumn Term 2

Maths & Literacy

In Literacy this term we will be reading the following books: Farmer Duck, The Jolly Christmas Postman and The Christmas Story. We will be using the texts to develop the children's love of reading, developing their vocabulary and starting to write words and captions in their writing.

We will be using the Christmas Story to support our understanding in preparation for the Nativity performance.

In Maths we will be counting, making sure we tag each object with a number as we count. We will be showing numbers using our fingers and recognising small quantities without needing to count them.

Reading at Home

Please can ask you to read the reading books we send home with the children. Reading at home each night has such a massive impact on their reading and vocabulary and we appreciate your support with this.

In other areas

In geography this term we will be looking at our local area and the role of the RAF in our community. We will also be looking at how Christmas is celebrated around the world.

In RE we will be learning about important figures in Christianity and Islam. We will be looking at how special events are celebrated in different religious traditions. Diwali, Hanukkah and Christmas will be our focus celebrations this coming term.

In DT we will be making a winter soup and the children will be preparing the vegetables and eating the finished product at the end.

30.10.23 INSET day

31.10.23 Visit to the Prayer Room at RAF Coningsby.
