

## Science home learning 31.01.22

Science at Coningsby St. Michael's  
Church of England Primary school

Science develops our curiosity. We are asking and investigating questions about all aspects of the world around us. It impacts our daily lives and future.

Can we remember these key words from last week?

adaptation

evolution

advantageous

disadvantageous

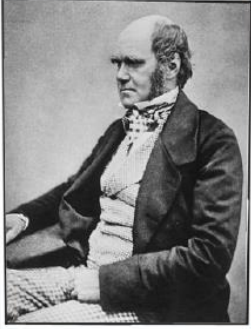

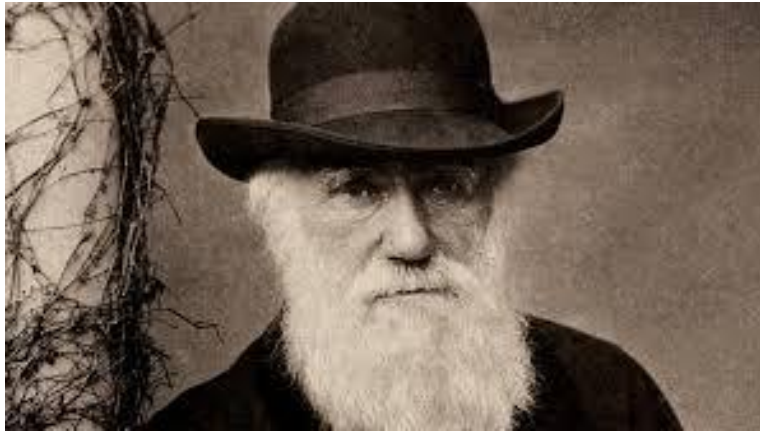

Can you write a definition of each one? Can you think of some synonyms and antonyms for each word? What image could you draw to help you remember it?

## Match the beak to the food

 <p>© Wild Wonders of Europe / Vanessa / naturepl.com</p>		 <p>© Dennis Krotz</p>

Charles Darwin  
1809-1882

Charles Darwin's work revolutionised evolutionary thought. His life's work on the way life on Earth has evolved has shaped and influenced the work of scientists ever since its publication in the mid-nineteenth century. *On The Origin Of Species* described how his experiences studying species in the Galapagos Islands helped him to explain how **natural selection** works.

Can you remember what Charles Darwin said about natural selection?
