

HELP YOUR CHILD KNOW NUMBER NAMES IN ORDER TO AT LEAST 10!

Learning number names in order helps your child count, understand numbers and feel confident in maths.

1. NUMBER NAMES IN ORDER

We say number names in order, starting from 1.

1	2	3	4	5	6	7	8	9	10
one	two	three	four	five	six	seven	eight	nine	ten

2. ON A NUMBER LINE

Numbers go up by 1 each time.
We read them from left to right.

1	2	3	4	5	6	7	8	9	10
one	two	three	four	five	six	seven	eight	nine	ten

3. PRACTICE TOGETHER

Say it together
Count from 1 to 10 out loud.
Then try backward from 10 to 1.

"1, 2, 3, 4, 5, 6, 7, 8, 9, 10!"
"10, 9, 8, 7, 6, 5, 4, 3, 2, 1!"

Point and say
Point to each number on the number line and say the number name.

"This is 1."
"This is 2." ...

Mix it up!
Say a number. Can your child say the next number?

You say: "4" Child says: "five"
You say: "seven" Child says: "eight"

4. FUN IDEAS TO TRY

Number card line
Make number cards 1–10. Put them in order. Mix them up and see if your child can put them back in the right order.

Step counting
Count steps, jumps or claps from 1 to 10. Say each number as you go.

Spot and say
Look for numbers around you (on doors, signs, buses). Read them in order if you can.

TOP TIP
Short, regular practice every day helps your child remember and builds confidence!

Celebrate every try!
Mistakes help us learn.

YOU'RE DOING GREAT!
Your support makes a big difference.
