

1. $41 - 12 =$
2. $26 - 13 =$
3. $35 - 15 =$
4. $42 - 38 =$
5. $24 - 12 =$
6. $49 - 38 =$
7. $50 - 41 =$
8. $46 - 26 =$
9. $19 - 11 =$
10. $25 - 10 =$

5a. Katie is given a problem:

I have 24
sweets and I
am given 30
more.

	2	4
+	3	0
<hr/>		
	5	0

10
10
1

10
10
10

This is her calculation.
Is she correct? Explain why.

5b. Noah is given a problem:

I have 46
strawberries
and I eat 20
of them.

	4	6
-	2	0
<hr/>		
	6	6

10
10
1
1
1

10
10

This is his calculation.
Is he correct? Explain why.

Jasmine has 33 stickers.

Ollie has 54 stickers.

How many more stickers does Ollie have?

What method did you use to solve the problem?

Eva and Whitney are working out some subtractions.

I am working out
 $74 - 56$

Whitney

Eva

One of my numbers
in my question is 15

Whitney's answer is double Eva's answer.

What could Zoe's subtraction be?
